Professional Food Service Equipment Suppliers

Message From Managing Director

First of all thank you for your interest in the Sunnex Brand and Sunnex Group of companies. Sunnex Products Limited is a Hong Kong based company specializing in the manufacturing of catering and household items since 1972. Sunnex is a member of the Sunbeam Manufacturing Company group whose history dates back to 1929. The Group now has businesses in property management, manufacturing, import and export trading and investment in related businesses. Over the last three years, the catering industry has been hard hit by COVID-19 pandemic. But Sunnex has survived this pandemic through careful cash management and our focus in satisfying customers with attentive service and continued product innovation. Exporting business is not a simple process of order taking and logistic arrangement. In the pandemic years, we scurried around for containers and finding ways to reduce freight costs. In the recovering years, we are working hard to contain cost increases and improve production efficiencies.

The company has a vision to become a hundred year brand and a leading supplier and service provider for the professional food service industry. Our mission is clear, that we want to provide good service and quality products so that we can keep our customers happy. As a result, we are consistently improving and expanding our product ranges to cover wider customer needs, improving our supply chain, designing innovative new products, increasing efficiency through manufacturing automation. Our innovations continue to be a driving force in the Buffet Equipment industry.

Integrity, Innovation, Professionalism, Win-Win Cooperation, Attention to End User Needs

Our corporate core values are: Integrity, Innovation, Professionalism, Win-Win Cooperation, and Attention to End User needs. These core values enable us to remain a successful business over the past ninety years and continue to meet challenges year after year. We are determined to meet our customer's needs by optimizing customer service and making product design that can put a smile on the face of our end-users. We value business integrity and respect our business partners, many of our business partners have been with us for over 30 years or more. And that our trading network has expanded to over 70 countries worldwide.

Although not frequently talked about in the catering equipment manufacturers, ESG has long been a part of Sunnex's culture. Our emphasis in fully electrical buffet food warming will continue to offer low carbon solutions to our customers and industry, our strong financial position and attentiveness to end users' need will keep our business sustainable in the long run. With a strong commitment to conduct business with the highest standards of ethical conduct, I am confident that we will continue to grow and work with our partners and stakeholders to build a better world for tomorrow.

Michael Yu, Director, Sunnex Products Limited

Save Environment

Sunnex advanced dry heat technology minimizes energy consumption compared to previous electric chafers with water pan and heating element. It goes from cold to hot in about 15 minutes, but uses only 400 watt against old style electric chafers uses 900 watt, which means you save more than half of the electrical energy in the same period of time. You can keep food hot and delicious while using less energy, making a positive impact on the planet without compromising on quality.

Precise Temperature Control

All know that chafers need to stay hot or even keep consistent heat, but you could not be sure when using traditional chafers with fuel. Digital display temperature control lets you know at one sight.

No More Worry for Water Level

Traditional chafers use hot water to keep food warm. Not only do you need to wait for water to be heat up, you also have to keep watching water pans not getting dry. By eliminating the need for water pan, Sunnex Waterless Dry Heat Chafer saves manpower and conserves water. Say goodbye to the messy constant water refills associated with traditional chafers.

KASA SERIES - BUILT-IN BUFFET CHAFER -

- Advanced lid brake let lid opens and closes quietly and slowly (80000 times guarantee).
- Dry heating waterless technology. No need to use fuel can or heating plate for built-in construction.
- Electric digital temperature control system using microprocessor.
- User friendly operation with three preset temperature keeps food in good taste.

SIZES OF GASTRONORM PANS

Gastronom (GN) originated in the 1960s, now it has become a basic kitchenware in the international catering industry. Its benchmark specification is 1/1 size with length 530mm x width 325mm, other gastronorm sizes are multiples and submultiples of this basic module size and often shown in terms of fraction. For example, size of a GN 1/2 container (325 x 265mm) is half of a GN 1/1 container.

WHY CHOOSE 304?

	304 Stainless Steel	201 Stainless Steel
Chromium		
	Chromium can enhance the corrosion and rust resistance of steel. More expensive.	
Nickel		
	Nickel can enhance the corrosion and rust resistance of steel. More expensive.	
Manganese		
	Manganese can increase strength, toughness and hardenability of steel. Lower cost.
